

Department of Organic and Inorganic Chemistry - University of Alcalá

PhD position in Organic Synthesis

A PhD position is available in Química Biológica group at the Department of Organic and Inorganic Chemistry of the University of Alcalá (quibio.web.uah.es/group/), to enroll in a research program leading to the completion of a Doctoral Thesis. The selected candidate will develop *environmentally sustainable metal-free methodologies for the synthesis of polycyclic and borylated compounds of interest for the preparation of drugs and materials*.

Applicants must hold a Master in Organic Chemistry. Candidates should have practical experience in organic chemistry, be familiar with techniques such as inert atmosphere, NMR, MS, IR, etc. and good level of written and spoken English.

Applications of strongly motivated candidates with good academic record should be addressed to Prof. Dr. Manuel A. Fernández-Rodríguez (mangel.fernandezr@uah.es) before February 15th, 2023 including:

- A cover letter, highlighting the interest in the position
- *Curriculum vitae*, including the average mark of the academic record
- A letter of support (or the names and contact details of two academic referees)
