

Job opening for Programa Investigo at Oniria Therapeutics

Laboratory Technician in Life Sciences II

[Oniria Therapeutics](#) is a biopharmaceutical company in the field of precision oncology. It develops first-in-class therapies to modulate and eliminate dormant tumor cells as a novel targeted strategy to overcome their persistence and improve patient lives.

The company was incorporated in 2021 as a Spin-off of the Vall d'Hebron Institute of Oncology (VHIO), the University of Barcelona (UB) and Catalan Institution for Research and Advanced Studies (ICREA) by Dr. Héctor G. Palmer, Dr. Isabel Puig-Borreil, Dr. Xavier Barril, Dr. Carles Galdeano, Dr. Josep Tabernero and Esther Rimbau. It is supported by national investors and organizations in the healthcare and life science sector. The company is located at the CELLEX CENTER, in the Vall d'Hebron campus.

Job description

We are seeking a motivated Laboratory Technician in Life Sciences to join our interdisciplinary team to develop new agents designed to modulate tumor dormancy to fight cancer progression. The candidate will participate in a highly translational project with interactions with academic institutions, industry and clinicians.

It is a great opportunity to gain drug discovery and development experience and in the following key tasks:

- Execution of in-vitro, ex-vivo and in-vivo efficacy studies of the selected candidates.
- Experimental development and analysis of results, under the supervision of the Research Scientist in Life Sciences of the company.
- Study of the mechanism of action of the different compounds and validation of the new targets.
- Participation in the company's scientific meetings.
- Participation in the interpretation of data and in the elaboration of technical and scientific documents (figures and texts for manuscripts and their publication or patent protection and laboratory protocols)

This position is related to the Investigo grant of which Oniria has been a beneficiary.

It is not excluded that the candidate can start the PhD in biomedicine during the Investigo grant period if he/she is not a PhD.

Requirements

- Must have:
 - Life Science Bachelor degree in biology, biochemistry, or related field.
 - Be under 30 years old

Finançat per

- Good teamwork and interpersonal skills, as well as independent, motivated, and collaborative person
- Fluency in English and Spanish
- Nice to have:
 - Knowledge of the drug discovery process/biotech industry
 - FELASA animal handling accreditation
 - Master or PhD in biology, biochemistry, or related field
 - Hands-on experience with biochemistry techniques & mammalian cell culture and flow cytometry assays

We offer:

- Full-time contract in an exciting biotech start-up international environment.
- Continuous training in a high-quality scientific environment
- Good working atmosphere
- Expecting starting date: June 2023

Application process:

Please, send the following documents:

- Blind CV (.pdf)
- Blind Cover letter (.pdf)

To the e-mail address info@oniriatherapeutics.com with "Laboratory Technician in Life Sciences II" in the e-mail title.

Confidentiality in document handling and equality of opportunities policy are guaranteed by Oniria Therapeutics.

Deadline to submit application: 15 May 2023
