FPI PhD Fellowship 2024

We are seeking PhD candidates for a fully-funded four-year FPI scholarship associated with the project entitled: “**Asymmetric Catalysis Applied to the Synthesis of Compounds with Planar Chirality**” Ref: PID2023-147050NB-I00 funded by MCIU (Ministerio de Ciencia, Innovación y Universidades). The scholarship will support the completion of a Doctoral Thesis in the *Sustainable Catalysis: Methods and Computation* group at the Joxe Mari Korta Centre (UPV/EHU) in San Sebastián.

Research Topic: *Synthesis and applications of molecules with planar chirality (Angew. Chem. Int. Ed. 2022, 134, e202113504)*

Supervisors: Dr. Rosa López and Prof. Enrique Gómez-Bengoia

Institution: University of the Basque Country (UPV/EHU)

Requirements: Master's degree in Organic Chemistry; Experience in Organic Synthesis; Good oral and written communication skills in English.

If you are interested in joining our group, please write to rosa.lopezalvarez@ehu.eus and enrique.gomez@ehu.eus (subject: FPI2024), and attach your CV along with a motivation letter for the Doctoral Thesis.
