WE ARE HIRING

**PHD FELLOWSHIP
OPPORTUNITY**

ULTRAFAST X-RAY SPECTROSCOPY

WE ARE SEEKING

We are seeking a new candidate to join our research efforts in the field of ultrafast X-ray spectroscopy of photoinduced molecular systems, as part of our ongoing research lines. Our group actively participates in ultrafast experiments conducted at synchrotron and XFEL facilities, providing both theoretical and experimental support to these studies.

Candidates are required to submit a complete an updated CV with a brief description of the previous research and a motivation letter
