

Water Safety Symposium (WSS) 2026

EMERGING CONTAMINANTS AND INNOVATIVE APPROACHES TO WATER PURIFICATION

6-8 May 2026

Centro de Ciencias de Benasque Pedro Pascual, Benasque, Spain

Wednesday 6th – Friday 8th May 2026
Benasque, Spain

<https://benasque.org/2026wss/>

Abstract submission deadline: 13th March 2026

Organized by:

Sponsored by:

Emerging Contaminants

“Characterizing and tracing micro- & nano-plastics”

Dr. Stefania Federici

University of Brescia (Italy)

“PFAS: novel toxicity mechanisms based on their surfactant properties”

Prof. Patrick Allard

UCLA (U.S.A.)

Advanced materials

“Metal Organic Frameworks (MOFs) for water purification”

Dr. Sara Rojas Macias

University of Granada (Spain)

Sustainable approaches

“Developing microbial approaches for plastic bioremediation”

Prof. Eva C. Sonnenschein

Swansea University (U.K.)

Science4Policy

“Legislating nanomaterials and micro- & nano-plastics from a European perspective”

Dr. Blanca Serrano

ECETOC (Brussels)
